Notes to Financial Statements

NOTE 1: Organization and Nature of Business

George McKelvey Co., Inc. (the "Company") is a corporation organized in 1973 under the laws of New Jersey. The Company is duly registered and approved as a broker-dealer and investment advisor with the Financial Industry Regulatory Authority (FINRA) and Securities and Exchange Commission (SEC) on May 18, 1973 and September 4, 1990, respectively.

NOTE 2: Significant Accounting Policies

Basis of Presentation

The accounting policies and reporting practices of the Company conform to the predominant practices in the broker-dealer industry and are in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Advisory Income

Investment advisory fees are received quarterly but are recognized as earned on a pro rata basis over the term of the contract.

Commissions

Commissions and related clearing expenses are recorded on the settlement date basis as securities transactions occur.

Income Taxes

The amount of current taxes payable or refundable is recognized as of the date of the financial statements utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized for the changes in deferred tax liabilities or assets between years.

The Company recognizes and measures its unrecognized tax benefits in accordance with FASB ASC 740, *Income Taxes*. Under that guidance the Company assesses the likelihood, based on their technical merit, that the tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires change.

GEORGE McKELVEY CO., INC.
Notes to Financial Statements
December 31, 2015

NOTE 2: Significant Accounting Policies (continued)

The Company recognized no adjustment for unrecognized income tax benefits for the year ended December 31, 2015. Our policy is to recognize interest and penalties on unrecognized tax benefits in income taxes expense in the statement of income. The Company did not recognize any interest and penalties for the year ended December 31, 2015. The tax years subject to examination by the taxing authorities are the years ended December 31, 2015, 2014 and 2013.

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations, including the SEC and FINRA. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Depreciation

Depreciation is provided on a straight-line basis in the current period using estimated useful lives of five years, and in prior periods, double-declining method using estimated useful lives of five to seven years.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Operating Leases

The Company has one operating lease for office space and accounts for its operating lease according to the provision of ASC 840.

NOTE 3: Fair Value

Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

GEORGE McKELVEY CO., INC.
Notes to Financial Statements
December 31, 2015

NOTE 3: Fair Value (continued)

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Investments in securities listed on a national exchange are valued at the last reported sales price on the day of valuation. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Other assets are securities for which market quotations are not readily available are valued at fair value as determined by or under the direction of the investment advisor in accordance with US GAAP.

The resulting unrealized gains and losses are reflected in the statement of operations. Realized gains and losses from securities transactions are determined on the basis of identified cost.

The Company's management at the year-end has reviewed their assets and liabilities and in their opinion the book value is the same as estimated fair value at December 31, 2015.

NOTE 4: Clearing Broker

Pursuant to an agreement with a clearing broker, the Company is required to maintain a clearing deposit of \$50,000. As of December 31, 2015, a deposit in the amount of \$12,457 for 2015 is included in receivable from clearing broker on the accompanying statements of financial condition.

GEORGE McKELVEY CO., INC.
Notes to Financial Statements
December 31, 2015

NOTE 4: Clearing Broker (continued)

In the normal course of its business, the Company indemnifies its clearing broker against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under this indemnification cannot be estimated. However, the Company believes that it is unlikely it will have to make payments under these arrangements and as such has not recorded any contingent liability in the financial statements for this indemnification.

The Company clears certain of its proprietary and customer transactions through another broker-dealer on a fully disclosed basis.

NOTE 5: Bank Loan

Effective August 27, 2008, the Company obtained a line of credit in the amount of \$100,000 from Wells Fargo. All borrowings are collateralized by various assets of the Company and are personally guaranteed by the Officers-Shareholders. Interest accrues at the Bank's prime lending rate (3.50% as of December 31, 2015). There is no outstanding loan balance at the year end.

NOTE 6: Concentrations

All cash deposits are held by one major financial institution in the United States. At various times throughout the year, the Company's cash balance may exceed the Federal Deposit Insurance Corporation insurance limits. The company has not experienced any losses in such accounts and does not believe there to be any significant credit risk with respect to these deposits.

Substantially all of the Company's assets are held at the clearing broker and therefore are subject to the credit risk at that financial institution. The Company has not experienced any losses in such accounts and does not believe there to be any significant credit risk with respect to these assets held at the clearing broker.

NOTE 7: Pension and Other Postretirement Benefit Plans

The Company maintains a qualified retirement program in accordance with Section 401(k) of the Internal Revenue code. Notes to Financial Statements
December 31, 2015

NOTE 8: Regulatory Requirements

Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2015 the Company had net capital of \$320,656, which exceeded the required net capital by \$70,656. The ratio of aggregate indebtedness to net capital, at December 31, 2015 was 1 to 2.31.

Other Regulatory Requirements

The company is exempt from the provisions of Rule 15c3-3 under the Securities Exchange Act of 1934 as the Company's activities are limited to clearing all transactions with and for customers on a fully disclosed basis with a clearing broker.

NOTE 9: Guarantees

FASB ASC 460, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, requires the Company to disclose information about its obligations under certain guarantee arrangements. FASB ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as the occurrence or nonoccurrence of a specified event) asset, liability or equity security of a guaranteed party. FASB ASC 460 also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

Indemnifications

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with the acting as an agent of, or providing services to, the Company. The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including sub-custodians and third-party brokers, improperly execute transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company with its clearing agent National Financial Services, LLC has a reciprocal indemnification agreement which holds the Company harmless against any losses, claims, liabilities or expenses including without limitation those asserted by its customers if any employee or agent of National Financial Services, LLC has acted improperly.
